

SAVE OUR HOSPITAL

On Oct 22, Hamilton Health Sciences announced a proposed withdrawal of several key services from the WLMH. The loss of these services would result in the loss of an acute care hospital in our community.

In order to save our hospital we need:

- Time and support to find a solution that does not withdraw services from WLMH
- Access for WLMH leadership to all of the relevant documents/information used to justify this withdrawal
- Commitment from HHS and approval from the government of Ontario to rebuild the WLMH **NOW**

**ASK YOUR REPRESENTATIVES
TO SAVE OUR HOSPITAL TODAY:**
